

Eco D Wash has recognized the world water scarcity and shortage of water, and the shocking fact that over a billion people do not have access to water.

Eco D Wash has addressed the need to preserve water in South Africa and on the continent by sourcing a full range of fully imported eco-friendly products. The Eco D Wash product range now services operators and corporates throughout South Africa from shopping malls to vehicle dealerships, from Business Parks to Fleets to You.

Eco D Wash attends to South Africa and international enquiries

We recommend that clients should have a mini valet every week to be sure that every time they get into their vehicles they are sure they are breathing in clean air. We also recommend that people take care of the bodywork of their vehicles by using our product, to protect the paintwork and thus prevent the vehicle from deteriorating in value. Our built in polish ensures vehicles have a top-class shine, everytime they are cleaned.
